# Vegetable tanned leather

## Description :

The «Vegetable Tanned Leather» cream cleans, nourishes, polishes and preserves the appearance of smooth leather tanned by using natural tannins, like oak bark, chestnut bark etc.

It is more nourishing than the Nappa and also contains waxes: beeswax, carnauba wax, lanolin and Montan wax. It is neutral for all colours.

## Advice :

Recommended for shoes, handbags, luggages, leather garments, and all accessories. Do not use on suede or nubuck Always test in an inconspicuous place for colour fastness. It protects, cleans, polishes and preserves smooth leathers.

## Care instructions :

1. Remove any dust or dirt from the leather.
2. Apply the cream without excess using a white cotton cloth.
3. Allow to dry.
4. Shine with a soft cotton or wool cloth.

## Main ingredients :
